

Summary of 2th march

This was the first day with competition. The terrain today was difficult and hard, but also funny and great. The lunch was at the arena, and it was a sunny and warm day. After the competition, we went to the beach. Some of the students tried swim, but it cold and big waves, so most of students played football and volleyball. After this went to the hard floor to take a shower, and then we went to the restaurant Salmanha for diner. Then we took the bus back to the hard floor, and people were tired so they went to sleep.
